

GRINDER - DP01

DivePaq is the new range of portable underwater electric tools offering deepwater, high performance tools to replace existing hydraulic tooling.

The Divepaq grinder can be used for a variety of subsea tasks and has the below specifications.

- ⚡ Capacity 9"/230mm disk
- ⚡ Spindle M16 thread
- ⚡ Speed up to 2500rpm
- ⚡ Length 740mm
- ⚡ Width 320mm
- ⚡ Weight air/water 10.5/6Kg

FEATURES AND BENEFITS

- ⚡ Portable high power electrical tool
- ⚡ Deep water capable
- ⚡ Prepositional handle
- ⚡ Wet mate connector
- ⚡ Zero risk pollution

POWER OPTIONS

DivePaq can be powered via SURFACE POWER or via a SUBSEA BATTERY POD. Either option has a subsea pod rated to 300 m, fitted with ground fault monitoring, water ingress monitor, under water switch, wet mate connector for quick change out subsea, and power monitoring LEDs.

SPECIFICATION

APPROXIMATE POWER POD SPECIFICATIONS			
Dimensions - 600m long x 300mm OD			
POWER SUBSEA FROM BATTERY POD		POWER FROM SURFACE WITH PSU POD	
Normal Voltage	72Vdc	Standard 230Vac/3ph/60Hz supply with options of single phase, DC, and other frequencies and voltages	
Capacity	20Ah	Output Voltage	80Vdc
Duration at load	45mins	Duration	Continued use
Weight in air/water	25/7Kg	Weight in air/water	17.5Kg/0Kg

TOOL RANGE

Grinder/cutter

Impact Driver
